John R. Mazeau, Building Inspector

AUDITOR'S REPORT

Board of Selectmen
Town of Newington
Newington, NH 03801

I have examined the combined financial statements of the Town of Newington and its combining and individual fund financial statements as of and for the year ended December 31, 1985, as listed in the table of contents. My examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures that I considered necessary in the circumstances.

The Town has not maintained a record of its general fixed assets and accordingly a statement of general fixed assets, required by generally accepted accounting principles is not presented in the financial report.

In my opinion, the combined financial statements referred to above present fairly the financial position of the town of Newington at December 31, 1985, and the results of its operations and the changes in financial position of its proprietary fund types and similar Trust funds for the year then ended, in conformity with generally accepted accounting principles applied on a consistent basis. Also, in my opinion, the combining and individual fund financial statements referred to above present fairly the financial position of the Town of Newington at December 31, 1985, their results of operations and the changes in financial position of individual proprietary funds for the year then ended in conformity with generally accepted accounting principles applied on a consistent basis.

SELECTMEN'S LETTER

1986 was both a challenging and exciting year for the Board of Selectmen. The majority of the planned major renovations to the various town buildings were accomplished, the main item being the exterior work on the Old Parsonage. Plans are to redecorate the interior in 1987 in the appropriate style.

Many of you are aware that trash disposal is a problem for Newington as in most of the surrounding communities. We are fortunate to be a member of the Lamprey Regional Solid Waste Cooperative, however, our share of the costs for utilizing this facility have been increasing for the past several years due to the increasing volume of trash to be disposed of. Until this coming year, no money had to be appropriated for this purpose. Historically, in 1978 Newington paid into the cooperative over \$300,000 to enable the group to get started. Since then we have been using that 'advance' payment to cover our share of the "tipping fees" for trash generated in the Town. Now the time has come that this source of financing has been exhausted and we must raise, by taxes, our share of these costs. In view of the fact that 90% of the trash is produced by our Industrial-Commercial taxpayers, the Selectmen have advised all commercial haulers that they must from now on bill their customers for tipping fees as well as haulage costs. You will note that in the budget we must raise \$200,000 for waste disposal, but we also propose to collect \$180,000 by billing the commercial haulers as the costs are incurred.

As voted at the 1986 March Town Meeting, a Police Commission will be elected to oversee the workings of the Police Department. We sincerely wish this new commission every success. One item we would like to see addressed is the need for a new police facility.

Newington continues to grow and we will continue to work to see that it remains a healthy, safe and comfortable town for all our residents to enjoy.

Board of Selectmen
Leonard N. Eames, Chairman

ACTION TAKEN ON WARRANT ARTICLES 1985 MARCH TOWN MEETING

- Article 1. Election of Officers
- Article 2. Zoning:
 - Amendment 1. Voted not to restrict use of sideyards.
 - Amendment 2. Voted not to restrict Driveway placement.
 - Amendment 3. Voted to restrict residential use in the General Business District.
 - Amendment 4. Voted to leave the height of buildings in the Industrial Zone subject to Planning Board approval.
 - Amendment 5. Voted to delete Enclosed Shopping Malls from uses permitted in the Commercial Zone.
 - Amendment 6. Voted not to increase fees for Building permits.
 - Amendment 7. Voted to establish the line between Residential and Business in the area of Trickey's Cove.
- Article 3. Voted that the Police Department will be entrusted to a Police Commission elected by popular vote.
- Article 4. Voted to allow Sewer Commission to expend accumulated interest from Sewer Revenues.
- Article 5. Voted to leave the operation of the Wastewater Treatment System to the Sewer Commission.
- Article 6. Voted to allow the Selectmen to adopt welfare guidelines.
- Article 7. Voted to adopt a Fire Hydrant Ordinance.
- Article 8. Voted to adopt an Alarm System Ordinance.
- Article 9. Voted to leave the maintenance of Town land and buildings to the Selectmen.
- Article 10. Voted to allow the Selectmen to dispose of property acquired through Tax Collector's Deeds.
- Article 11. Voted to allow the Selectmen to borrow in anticipation of taxes.
- Article 12. Voted to adopt an ordinance on use of Town owned lands.

REPORT OF THE HISTORIC COMMISSION

1986 was a summer of intensive work for the Historic Commission members. The town of Newington became one of six New Hampshire towns to receive Certified Local Government status, thus permitting the Historic Commission to receive National Park Service matching funds for historic activities. The members:

sponsored workshops on architectural history and historic preservation to improve their qualifications.

supervised the repairs for the Old Parsonage with the Historic Society and the Selectmen.

completed individual assignments to survey 13 architectural/historic properties at a level suitable for nomination to the National Historic Register in a 110-acre Newington town site. A draft of the National Register nomination was submitted to the N.H. Division of Historical Resources for approval in September.

The commission and the town office donated in-kind services to the value of \$7,647.83 in behalf of this project to receive a NPS grant of \$3,400.

During the next year the Historic Commission expects to continue the survey of historic sites in Newington and to catalogue personal and town historic papers for safekeeping.

Barbara Hill, Chairperson

REPORT OF THE BOARD OF ADJUSTMENT

Only two hearings were held in 1986 as follows:

On September 24, 1986, voted to grant the owners of property at 115 River Road a variance to use the property for Business with less than the required lot size.

On October 29, 1986, voted to grant the owner of the "Inn at Newington" a variance to use a portion of the 75 feet frontyard setback.

Stillman Packard
Chairman

1986 AMBULANCE ANNUAL REPORT

In 1986, the Ambulance responded to 4.4% more calls than in 1985. The Ambulance responded to 212 calls. The following is a breakdown of the calls by district:

- 9% to the Industrial District
- 19% to the Business District
- 20% to the Fox Run Mall
- 11% to the Newington Mall
- 17% to the Residents of the Town
- 15% for Motor Vehicle Accidents
- 8% for Mutual Aid calls
- 1% standing by at fire scenes

The Ambulance does provide a transfer service for the residents of Newington, and was called upon 10 times. It is a privilege to provide this service for the residents.

At the beginning of 1986, there were 17 Ambulance attendants; and at the end of 1986, there were only 10 Ambulance attendants. There is a very strong need for more participation by the residents of the Town. This fast decline is putting a heavy burden on just a few people. Out of the 10 Ambulance attendants only 6 were Town residents.

Some of the Ambulance personnel are trained and are willing to provide to the residents, through an outreach program, CPR training. Any resident of the Town of Newington wishing to be taught or to be recertified in CPR, can contact the Fire Department and have your name placed on a list to be enrolled into the next available class.

I would like to take this opportunity to thank all Ambulance personnel for their continuing contributions to the Ambulance Service, and their efforts in improving their skills that are necessary for Emergency Medical Care given to the Town of Newington.

Respectfully submitted,
Larry Wahl, Ambulance Director

1986 FIRE DEPARTMENT ANNUAL REPORT

The year of 1986 shows a decrease in fire calls by 15% over 1985. The Fire Department responded to 166 calls. The following is a breakdown of the calls by district:

- 10% Industrial District
- 28% Business District
- 22% Fox Run Mall
- 9% Newington Mall
- 13% to the Residents
- 10% for Motor Vehicle Accidents
- 7% Mutual Aid
- 1% for Boat Rescues

This Department relies on volunteers for man power to help our neighbors in a time of need. During 1986 the roster remained at about 34 members. Of these 34 members, only 17 responded to any call.

In September, the Fire Department became the parent organization for the Boy Scouts of America, Explorer Post 933. These young people, totaling 9, are learning the tools and use of those tools as a firefighter. These young people are not allowed to enter a burning building or hazardous location, but can help the firefighters with changing self-contained breathing apparatus bottles; keep track of the tools that are removed from the various trucks; cleaning and rolling hose; cleaning the vehicles; loading the vehicles after a call; and the list continues. These young people have been a great help to the firefighters, and have been warmly received by the Department.

I wish to thank each and every firefighter for their time and efforts in improving their skills that are necessary in protecting the Town of Newington.

As a final note, I wish to remind the Town citizens, that the Fire Department is available for public assistance calls, as well as for emergencies. We are here to serve you.

Respectfully submitted,
Larry Wahl, Fire Chief

TOWN FOREST FIRE WARDEN

Between July 1985 and June 1986, we experienced fewer fires than normal. The two leading causes of forest fires were again children and fires kindled without written permission of a Forest Fire Warden. Both causes are preventable, but only with **your** help.

Please help out town and state forest fire officials with forest fire prevention. Contact your Forest Fire Warden for more information.

Enforcement of a state timber harvest regulation is the responsibility of State Forestry officials. Our state has excellent timber harvest regulations; however, your assistance is needed.

If you know of a logging operation and suspect a state timber harvest law may be violated, call your Forest Fire Warden

If you own forest land, you become responsible for the timber tax payment starting April 1, 1986. This is a change in the Timber Tax Law that will impact all forest landowners. Contact your Board of selectmen for timber tax forms.

1986 FOREST FIRE STATISTICS

	STATE	DISTRICT	TOWN
Number of fires	840	135	7
Number of acres	751	39	½

Alfred Grimes, District Chief
Larry Wahl, Town Forest Warden
Richard Rines, Deputy Warden
Richard Spinney, Deputy Warden
Robert Spinney, Deputy Warden

NEWINGTON POLICE DEPARTMENT 1986 ANNUAL REPORT

During 1986, the Police Department recorded 126,612 miles and received 3,979 complaints or calls for assistance. Investigations by the Department's officers included 534 criminal offenses, 15 missing persons and 30 animal complaints. There were 234 criminal arrests made during 1986.

In the area of highway safety, efforts of our officers resulted in 47 motor vehicle arrests, 886 summonses, 1,091 motor vehicle warnings and 30 defective equipment tags. Officers assisted 630 motorists while on routine patrol and rendered assistance to other law enforcement personnel on 531 occasions. During 1986, there were no fatal accidents; however, 265 property damage accidents and 29 personal injury accidents were reported.

Police activities resulted in 1,150 cases being prepared for the Portsmouth District Court.

The department's prevention and service program resulted in 5,121 building checks and 146 escorts being made. The department investigated 444 burglar alarms, responded to 83 fire calls and assisted in 99 ambulance calls.

During 1986, 21 motor vehicles were reported stolen from Newington and 15 were recovered. Additional property valued at \$137,927 was reported stolen from Newington, while recovered property totaled \$24,105.

Once again, the level of demand activity continued to increase during 1986. Accidents increased by 20%, burglar alarms by 6.5% and crimes by more than 8%, for a total increase of 10%. In the past three years, demand activity has increased by 30% and the trend is expected to continue.

While the department worked shorthanded in two positions for the majority of the year due in part to fiscal restrictions, we were able in December to fill the two vacancies with experienced officers. Ed Correia came to us after working for departments in Somersworth and Durham, NH, and in Maine. He lives with his family in Dover, NH. Brian Newcomer, a local resident, joined the department after working for the Portsmouth and Dover Police Departments. We have requested one additional officer to be offset by a corresponding reduction in the number of hours worked by our auxiliary officers during 1987. The addition of this officer will bring our department up to the level requested in 1983 when the Fox Run Mall began operations.

We are pleased to report that, after a year of experience with our computer system, it appears to be filling our expectations. Most of our members have begun working with the system and it is hoped that by adding an adapter another terminal can be placed

in service for our patrolmen to use on a regular basis. The requested part time clerical position should somewhat relieve the backlog of reports that currently confront our secretary.

It comes as no surprise that both the Police and Fire Departments are feeling the impact of an expanding community. Newington has reached the level of activity such that demands placed upon the Police Department in many areas equal those of communities such as Durham, Seabrook, Lebanon, and Bedford — all communities with 15 or more police officers. While we have been extremely fortunate in the residential areas of town in curtailing problem activity, we once again urge all residents to remain attentive to suspicious activity. Your cooperation is greatly appreciated, not only by the members of the Police Department, but more importantly by your neighbors.

Respectfully submitted

John K. Stimson, Chief

REPORT OF THE PLANNING BOARD

In preparation for the re-printing of the Zoning Ordinance, the Planning Board is proposing the elimination of several obsolete sections of the Ordinance. Consequently, this year's Warrant is very lengthy. Prior to Town meeting, the Planning Board will mail to every resident a detailed explanation of these proposed deletions.

During 1986, eleven subdivision applications were submitted, proposing a total of 24 lots. No new lots were approved. Fifteen applications for Site Plan approval in the Commercial/Industrial District were submitted. Six were subsequently withdrawn, three are currently pending, and six were approved. Projects approved in 1986 were as follows: a medical office complex next to the Inn at Newington, a three-story office building on River Road adjacent to the Asia Restaurant, a paint shop addition to Neslab, temporary office trailers at Combustion Engineering, improvements to the former Bruno fish plant, and parking lot improvements at the Newington Mall.

The Board notes with much sadness the passing of its Chairman of many years, Captain John F. Rowe. That Newington's residential district has thus far retained its beauty and rural character is due in large measure to the dedication and untiring efforts of the Planning Board's former chairman. We will all miss him.

Respectfully,

Marlon S. Frink, Chairman

NEWINGTON TOWN WARRANT

STATE OF NEW HAMPSHIRE

TO THE INHABITANTS OF THE TOWN OF NEWINGTON,
COUNTY OF ROCKINGHAM AND OF THE STATE OF NEW HAMPSHIRE,
VOTE IN TOWN AFFAIRS.

You are hereby notified to meet at the following place, to-wit:
on Tuesday, March 10, 1987, at 1:00 A.M. for the purpose of
Articles 2 and 3.

The polls will be open at 10:00 A.M. and close at 7:00 P.M.

The Business portion of the Meeting to Article 2 and Article 3
will resume at 1:30 P.M. Saturday, March 14, 1987.

ARTICLE 1. To choose in a manner provided by law, one
selectman for a term of 3 years; One Town Clerk for a term of 3
years; One Tax Collector for a term of 1 year; One Treasurer for a term
of 1 year; One Highway Agent for a term of 1 year; One
Commissioner for a term of 3 years; One Public Works Commissioner
for a term of 2 years; One Police Commissioner for a term of 3
years; One Fire Engineer for a term of 3 years; One Librarian for a
term of 3 years; Three Budget Committee Members for a term of 3
years; Two Planning Board Members for a term of 3 years; One
Planning Board Member for a term of 3 years; One Conservation
Funds for a term of 3 years; One Trustee or Trustee for a term
of 1 year; One Superintendent of Cemetery for a term of 3 years;
One Cemetery Committee Member for a term of 3 years; One
Commissioner for a term of 3 years; One Planning Board Member
for a term of 1 year.

ARTICLE 2. To see if the Town will vote to amend the existing
Zoning Ordinance as follows:

Amendment 1. Delete the following from Article 2:

Campground -- Land upon which one or more tents are
erected for temporary family recreation, use not
arranged specifically for that purpose. The word "camp
grounds" shall include the words "tenting grounds."

Camp Site -- A place designed to be used for a tent
or a camp ground.

Seasonal Use or Building -- A use or building designed
for operation or occupancy for only a part of the year, such
as a camp, summer cottage, hunting lodge, etc.

Tenting Ground -- See Camp Ground.

100 feet on each side of such lot and building thereon, and zoning district and fronting setback of such lot, is less than the minimum setback for such zoning district.

In such cases the front yard setback shall not be less than the required setback for such zoning district, or the average of the existing setbacks on the lot.

Amendment 7. Delete Article X which reads in full:

"Within 30 days after the adoption of this ordinance thereafter as terms expire or vacated, the Board of Selectmen shall make appointment from the town of five members conforming to provisions specified in Chapter 31 of the Revised Statutes Annotated 1955. One of the members also be a member of the Planning Board.

Amendment 8. Delete Article XI which reads in full:

"Section 1 — Authority — On recommendation of the Planning Board, and subject to the recommendation of the Board of Selectmen, the municipal officers may present, without consideration by the legislative body, for adoption of the districts established on the following map, and the regulations set forth in this ordinance, to be:

Section 2 — Procedure on Amendments — A. All amendments must first be submitted to the Board of Selectmen for their consideration. B. The Planning Board shall hold at least two public hearings on the proposed amendment, no less than 15 days after receiving the proposed amendment. The Board of Selectmen shall fix the time and place of such hearings, not less than 14 days before such hearing, the date, time, place, and purpose of such hearing, and such advertising shall be published in a newspaper of general circulation in the town. C. Such advertising shall be published in the town newspaper of general circulation, and the zoning change. Notice shall also be posted in public places and amendments on the first hearing shall be posted with the notice of the second hearing. D. All applicable sections of the Hampshire Revised Statutes Annotated, 1955, and Chapter 31, Sections 63a and 63 shall be amended:

Amendment 9. Delete Article IV, Section 1, which reads as follows:

"Restrictions On Signs — No sign may be erected without proper permits from Building Inspector and approval of the Board of Selectmen. Fees for such permits shall be the same as for Building Permits."

§ 24-201. To read with the following:

Section 9. Signs shall:

1. Not be erected on a building displayed with the primary permits from Building Inspector and approval by the Board of Selectmen.
2. No billboard shall hereafter be erected within the Town of Newington unless the sign and display do not exceeding four square feet in area are exempt from this ordinance.
3. Any and all signs shall be removed within 60 days from the time the identified business ceases to exist.
4. Fees for signs shall be the same as for building permits.

ARTICLE 3 - To see if the Town will vote to amend the Newington Zoning Code as follows:

Amendment 1 - Increase the penalty provisions in Section 9 from \$10 per day to \$100 per day.

Amendment 2 - Delete the word "non-removable" from Section 6 which presently reads as follows:

Swimming Pools - Any pool designed for swimming shall be completely fenced with a non-removable fence at least 4 feet in height. The gate or access in the fenced area shall be kept locked at all times that the pool is unattended.

ARTICLE 4 - To see if the Town will vote to authorize the Planning Board to prepare a 6-year Capital Improvements Program in order to advise the Selectmen and Budget Committee in their consideration of annual Budgets at per R.A 67A 9-8.

Article 5 - To see if the town will vote authority to expend at least \$100,000 per year from investments of sewer revenues to be used as a fund for the Sewer Budget of 1987.

Article 6 - To see if the Town will vote that the maximum speed and safe prima facie lawful speed limit upon Airport Road in said Newington shall be 20 miles per hour at all times.

ARTICLE 7 - To see if the Town will vote to leave the care and maintenance of the Town land and buildings to the selectmen.

ARTICLE 8 - To see if the Town will vote to authorize the Selectmen to dispose of any real estate acquired by the Town through Tax Foreclosure.

ARTICLE 9. To see if the Town will vote to authorize the Board to hire money on behalf of the Town in anticipation of a rate not to exceed the current loan rate.

ARTICLE 10. To see if the Town will vote to authorize withdrawal of Thirteen Thousand Eight Hundred Eighty Four and 00/100 (\$13,884.05) plus accrued interest from the Revenue Sharing Fund and deposit to the Capital Reserve fund for future Fire Department Vehicle previously established.

ARTICLE 11. To hear the report of the Budget Committee and see what sum of money the Town will vote to raise and appropriate for all Town expenditures for the ensuing year.

ARTICLE 12. To hear the report of the Moderator on the election of Town Officers.

Given under our hands and seal this 11th day of February, 1987.

Leonard N. Earned, Chairman
Paul Kent
John R. Mazeau

RECREATION COMMITTEE REPORT

Continuing in 1986 with the goal of offering "something for everyone," the Recreation Committee sponsored a variety of activities for the residents of Newington. Programs such as craft classes, theatre and day trips, and the weekly van shopping trip allowed leisure time for adults to be spent wisely. Special events attendance, the Annual New Year's Day Party and the return of Old Home Day fostered the sense of community for residents.

An increase in the number, especially at the preschool age, attending the summer recreation program gave the staff a busy summer. The Stone School, once again a facility for town residents, was added to the program with the organization of a game and activities room. The Committee plans to continue year-round use of this recovered town property.

Youth activities offered throughout the year included vacation and holiday special events, ski trips, and after-school sports, swimming and gymnastics classes. Cooperation with neighboring towns continued in the soccer program and expanded to offer Newington children the opportunity to participate in baseball and basketball leagues. Parents are to be commended for volunteering their time and efforts to insure the success of these programs.

Early in the year, the natural ice skating area on Little Bay Road was heavily used and prompted improvements be made. The Committee anticipates increased use of all town recreational facilities with population growth and expects to maintain and suggest improvements in the future. Recommendations of residents are always welcome and can be made to the Director or at any of the monthly meetings.

Annie Gasowski
Recreation Director
1986 Recreation Committee

CONSERVATION COMMISSION REPORT

This has been a year of frustration on one hand and accomplishment on the other. Ever since 1974 we have been trying to have Carter's Rocks restored to its original configuration. The abutting landowner had filled in the area to the Rocks with stone and gravel so as to have access at high tides. "Old Timers" remember the Rocks as they used to be with "the ebb and flow of the tide around the great flat ledge called "Carter's Rocks" as mentioned in *Landmarks of Ancient Dover* by Mary P. Thompson. Over the ensuing years letters to this property owner from the Selectmen, from lawyers, surveyors and the Commission members, have failed to bring about the restoration. In frustration, two town residents went to the State Wetlands Board in Concord to learn if a fill permit had been issued for this fill and was told that no such permit was ever applied for, clearly in violation of State Statutes. A follow-up to the Coastal Program Office in Portsmouth with an inspection of the site by Dr. Frank Richardson, showed that although the abutter had violated the State Statute, there was no harmful impact on the coastal program and that the issue should be resolved between the town and the abutting property owner who had filled in the area to the Rocks.

On the side of accomplishment, three historic plaques are in place in the town center. Thanks to the ongoing, dedicated work of planning, designing and carrying to completion these plaques by John Rowe, former member and Chairman of the Conservation Commission, the work has been done. Tourists and future generations can now learn something of Newington's past and appreciate the foresight of the early settlers.

Another milestone was to finally get a State Marker near the exit of the underpass. As funding for the State Marker program has ceased, we were fortunate to get it, "just under the wire."

In April 500 white spruce trees were set out in various places on town property, thanks to volunteer effort of Bob Olson, Harold Frink and the services of Paul Main.

The Commission has held four meetings during the year and in the future hopes to work with the Historic District Commission on the goals they have set.

LAMPREY REGIONAL SOLID WASTE COOPERATIVE

The Directors of the Lamprey Regional Solid Waste Cooperative are pleased to continue to report that the incinerator/energy recovery plant located on the University of New Hampshire campus is operating on a continuous twenty-four-hour, seven-day-a-week schedule.

The day-to-day operation is carried out under the supervision of the Cooperatives Administrator, under the general supervisory control of the three member Operations Committee from the Joint Board of Directors. The plant personnel, in addition to the Administrator, included two mechanics, a truck driver, two daily shifts of 12 hours each involving 8 persons, plus daily clean-up crew, and the secretary. This organization operates the incinerator system, maintains records and coordinates with the University's heating plant staff to monitor the boiler and steam production elements of the plant. The Cooperatives organization also handles the collection of refuse from the transfer stations of five communities, and handles the ash removal and its transfer to landfill sites.

The continual decline in the price of fuel oil during the past two years was of course welcomed by home owners and business operators; however, the price drop significantly reduced the income of the Cooperative for the sale of steam to the University, as the revenue from steam is controlled by the price of fuel oil.

The high volume of rain during the last year forced the Cooperative to divert considerable refuse, as the moist refuse burns much slower than when dry. We are experiencing an annual increase in refuse from the member communities, particularly those experiencing rapid growth. The member communities are asked to examine methods of reducing their waste stream.

Two factors have created a large increase in the tipping fee to be charged during the upcoming year. One being the volume of refuse anticipated to be diverted at high costs because of the above referenced increase in tonnage received. The major factor being ash disposal. As most are aware, the Cooperative has for the past year been disposing of ash in a rather bandaid approach, where a site in a member community is approved for a short time and then in another member community for a while. The Cooperative experienced two periods of shutdown when there was no approved site for ash disposal. Fortunately the two periods of time were brief. During the past two years the Cooperative with the assistance of its consulting engineer, the soil conservation service, the Bureau of Solid Waste Management and the New Hampshire Water Supply and Pollution Control Commission, have examined a multitude of prospective sites in the member communities for ash disposal. To date only two sites observed appear to meet the preliminary criteria

required by the regulatory agencies. The cooperative has purchased a site in Barrington and has taken an option on a site in Epping. The property in Barrington was purchased by the Cooperative for nearly One Hundred Thousand Dollars and will require a hydro-geologic study, design plan and site preparation anticipated to cost in excess of Fifty Thousand Dollars. It will require several months to complete these tasks.

At the time of this writing the Cooperative has been informed by representatives of the Bureau of Solid Waste Management that they feel they can approve a site at an existing landfill where the ash may be disposed of throughout the permit process.

The costs of refuse disposal appear to be escalating dramatically, however the options are few and far between. Turnkey Landfill in Rochester has been extremely cooperative in accepting the overflow from the Lamprey and accepting our refuse during scheduled annual maintenance shutdowns; however, they cannot accept additional waste or any ash at this time. Other alternative dumping sites available are in Bangor and Norridgewock, Maine. Obviously transportation costs to these sites would be astronomical. From examining the alternatives, although costly, it appears that it is in the best interest of the Cooperative to own and operate its own ash disposal facility in order to continue the goals of refuse disposal for the thirteen communities while creating a salable by-product.

Joint Board of Directors
Lamprey Regional Solid Waste Cooperative
/s/ Rance G. Collins, Chairman

LANGDON LIBRARY

HOURS: Wednesday 9 - 6, Thursday 1 - 9, Friday and Saturday 1 - 6. July and August only, Wednesday, Thursday, Friday, and Saturday, 1 - 5, Thursday evening 5 - 9.

TELEPHONE: 436-5154

TRUSTEES: Adeline Johnson, Christine Beals, Barbara Myers.
Regular meetings - First Thursday of the month, at 1 p.m. in the library. Public is welcome.

PROGRAMS: School-library, twice monthly on Wednesday, 12 noon to 2:30, grades K. through Six in four groups.

Story Hour, Third Thursday of the month at 3:30, directed by Annie Gasowski. Program consists of crafts, records and book reading.

Checklist Registration, accepted during regular hours.

Newington Neighbor. All items, photographs, reports notices, etc., received and filed for publication.

SERVICES:

- More than 400 new titles have been accessioned and shelved this year. The policy on books and other material given to the library is — useable gifts are kept and unuseable gifts are given to charities.
- Subscriptions to 65 magazines, certain out-of-date copies are free, storage for reference purposes of news, sciences, historical, cultural magazines up to five years; in some cases all issues are kept.
- Large paperback collection
- Phonograph records
- Good Genealogical selection
- Delivery to shut-ins, on request
- Book buying for individuals
- Telephone reference
- Beginning of large print book collection

Our best news is that after 350 years of settlement Newington has its own history book. It is being published by Phoenix Co. of Canaan, N.H. and will contain nearly 300 pages of maps, sketches, and photographs. The writing, some of which is excerpted from local individuals namely, Florence Watson and Frederick Pickering, was done many years ago. But, the book itself owes its existence to the vision, determination, and work of John F. Rowe. Sadly, our appreciation must be dealt with "In Memoriam." John died on December 19, 1986. The book is dedicated to him and will be of invaluable help in the library.

Marjorie Pickering, Librarian

HISTORICAL SOCIETY

The big project for the Historical Society, producing a town history, is nearly completed. John Rowe had finished the writing and sent the book to the publisher before his untimely death. We all grieve that John, who put so much time into this, did not live to see his work in print.

Meanwhile the Old Parsonage has undergone extensive restoration under the supervision of a joint committee of the Selectmen, Historic Commission and the Historical Society. Malcolm MacGregor, master workman in restoration, had directed the work. Every effort has been made to "read" the clues in the wood and return the building to its original appearance.

Two delightful discoveries have been made. The original wooden shutters in the parlor were found pushed back into the wall and sealed in by replacement window frames probably in the 1840's. The service kitchen located in the "Beverly Jog" proved to have once been a "cold room" or "buttery." This has been opened up, and the original back entrance to the house has been restored. Acting upon the advice of experts the committee has agreed to let the new clapboards weather for a few months before painting. This is being done to lift the grain of the wood, ultimately giving it a more authentic appearance.

Having these two projects well in hand, the Historical Society will resume regular meetings in the spring. Our schedule has been four meetings a year - April, May, September, October.

Anyone wishing to join the Historical Society may do so by sending yearly dues of \$1.50 to the Secretary, Margherita Mazeau.

NEWINGTON SCHOOL DISTRICT WARRANT

1987

The State of New Hampshire

To the inhabitants of the School District of the Town of Newington in the County of Rockingham and State of New Hampshire, qualified to vote upon district affairs:

YOU ARE HEREBY NOTIFIED TO MEET AT THE NEWINGTON TOWN HALL IN SAID DISTRICT ON TUESDAY, THE 10TH DAY OF MARCH, 1987, AT 10:00 O'CLOCK IN THE A.M. TO VOTE FOR DISTRICT OFFICERS.

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Treasurer for the ensuing year.
4. To choose a member of the School Board for the ensuing year.
5. To choose a member of the School Board for the ensuing three years.

POLLS WILL NOT CLOSE BEFORE 6:00 P.M.

NOTICE: The foregoing procedure calling for election of your district officers at the annual meeting is authorized by Statute (RSA 197:1-a) and was adopted by the district at its 1962 meeting.

GIVEN UNDER OUR HANDS AND SEALS AT SAID NEWINGTON THIS 13TH DAY OF FEBRUARY, 1987.

NEWINGTON SCHOOL DISTRICT

1987

The State of New Hampshire

To the Inhabitants of the School District of the Town of Newington in the County of Rockingham, State of New Hampshire, qualified to vote upon District affairs.

YOU ARE HEREBY NOTIFIED TO MEET AT THE NEWINGTON TOWN HALL IN SAID DISTRICT ON SATURDAY, THE 14TH DAY OF MARCH, 1987, AT 1:00 P.M. TO ACT ON THE FOLLOWING ARTICLES:

NOTICE: School District Officers are to be elected at the Town Meeting, March 10, 1987, in accordance with the Statutory Election Procedure adopted by the District at its February 23, 1962, annual meeting.

ARTICLE 1. To see what action the District will take in relation to reports of agents, auditors, committees, or officers chosen.

ARTICLE 2. To see if the District will authorize the School Board to make application for, to receive and spend in the name of the District, such advances, grants in aid, or other funds for educational purposes as may now or hereafter be forthcoming from federal, state, local or private agencies.

ARTICLE 3. To see if the Newington School District will appropriate the sum of Three Thousand Dollars (\$3,000) as a contingency fund as provided under RSA 198:4-a.

ARTICLE 4. To see what sum of money the District will vote to raise and appropriate to fund the increase in cost items relative to teacher salaries and other fringe benefits for the 1987-88 school year, which resulted from the collective bargaining agreement entered into between the Newington School District and the Newington Teachers Association and which represents increases over the current salaries and fringe benefits.

ARTICLE 5. To see what sum of money the District will raise and appropriate for the support of schools, for the payment of salaries of School District officials and agents, and employees (excluding negotiated "cost items" found in Article 4) and for the payment of statutory and other obligations of the District.

ARTICLE 6. To hear the report of the Moderator on the election of School Officers.

GIVEN UNDER OUR HANDS AND SEALS AT SAID NEWINGTON THIS 13TH DAY OF FEBRUARY, 1987.

REPORT FROM THE SUPERINTENDENT OF SCHOOLS

Daniel C. Durgin

This year it is particularly difficult to select the highlights of what has been a very active and busy period. However, a few projects and events come quickly to mind.

The Health Committee, which began its very considerable task of developing a comprehensive health curriculum, is nearing completion of its work. Started in January, 1986, the project has required a commitment of considerable time and energy by committee members. The goal of the committee is to present to the school boards this spring a complete health curriculum covering grades kindergarten through eight and incorporating the ten major areas, generally acknowledged as being a fundamental requirement in any health curriculum. The curriculum will encompass areas from fitness, dental health and nutrition to growth and development and substance use and abuse. The mental and physical health of our youth is of greater concern today than ever before. It is our hope that with a new formal program in place and with a solid commitment by the home, we can provide young people with the proper information to make the critical choices and decisions with which they will be confronted throughout their lives.

On a health related matter, staff members from SAU #50 took part in a two-day workshop in November which focused on building self-esteem in young people as one way of lessening the likelihood that students will become involved in drug and alcohol abuse. Funded by the Foundation for Seacoast Health and developed at Adelphi University under the direction of the U.S. Department of Education, the seminar also dealt with problem solving and related techniques along with some methods of dealing with those students who are most vulnerable to the use of Chemicals. The program commenced early on a Friday afternoon and continued until 9:00 p.m. that night; resuming at 9:00 Saturday morning and through the day into early evening. Contracted teaching personnel readily volunteered their time for this important experience. Attendance was well over 90%, indicating a very strong commitment to the profession and the needs of our young people.

The curriculum committees, which have been in place in SAU #50 for several years, have been restructured and expanded in number in order to better meet our educational goals. In addition to mathematics, social studies, language arts, and science, a fifth committee, unified arts, has been added. Unified arts encompasses music, art, foreign languages, home economics and physical education. The size of each committee has been reduced and the immediate responsibilities of each have been identified. Committees

have been asked to review the curriculum guides which represent the framework for our instructional programs, and recommend changes where appropriate. Changes will occur where updating is necessary and where academic indicators such as standardized test results, research, and teacher recommendation dictate.

For the past several years we have submitted through this medium a report from the Accountability Committee detailing students' achievement on a test instrument developed by a consortium of school districts. This process was developed in response to the New Hampshire Accountability Program, which was instituted in the late 1970's. The program as implemented was an excellent one requiring local districts to develop instructional objectives and then design a test instrument to measure achievement of these objectives. In 1985 the state mandated the fall testing of all students in grades 4, 8, and 11. Adding this required testing to the accountability testing, plus other testing that is done, led most school districts to the belief that we were reaching saturation as far as our student assessment programs. It was therefore decided by all school districts in the consortium to drop the accountability testing. The results of the standardized achievement testing (SAU #50 uses the California Achievement Test [CAT]) are available to parents of students in grades 2 through 8 and parents are urged to contact their school principal to review results or ask questions.

Last summer our school districts, along with the districts of SAU #21 in Hampton, combined to offer our first summer institute for critical skills. Briefly, the program consists of groups of students being presented with a real world problem to solve and being expected to do so with minimal adult intervention. The students, mainly 5th through 8th graders, must work cooperatively to reach a solution. In addition to providing students with a totally different learning environment to which they are accustomed, the program also serves to train teachers in the Learning by Real Problems method which is encouraged for use in the regular classroom. We will conduct a survey of students and their parents to determine interest in attending a second institute this summer. My hope is that a sufficient number of students will desire to participate in this unique and highly valuable experience.

As most citizens are aware, representatives from the towns of Greenland, New Castle, Newington, Rye, and SAU #16's Stratham, have spent the past year studying the feasibility of joining together in a cooperative school district spanning grades 7 through 12. The formation of this cooperative would result in the construction of a new school facility for students from the five towns in the aforementioned grades. It is anticipated that the matter will be brought to the voters in each town at special school district meetings to be

held sometime in the spring. A report of the Cooperative Study Committee will be presented at the annual meeting.

Included with this annual report is a questionnaire which I would urge you to complete and return. Schools, board members, and staff are vitally interested in your responses.

I will close this report as I have closed other similar reports in the past by urging parents and all citizens to be involved in the education of our youth by taking an active part in school affairs, by being informed about our schools and by communicating with school board members and school staff on any matter of concern or interest. Only through this partnership can we achieve and maintain the high standards for education that we all desire.

PRINCIPAL'S REPORT

Dear Friends:

As we enter 1987 - a new year full of hope and promise - we want to affirm our deepest gratitude to you, our sponsors. It is you who make it all possible. It is your belief in us that keeps us strong. It is because of your support that we are able to build bridges of knowledge and friendship with the community's young citizens.

With the current confusion of what skills are needed in the evolving marketplace, your children's acquisition of the basic skills and good habits should enable them to extend their learning as they proceed along the ladder of learning. Substantiating this conviction are the attainments of the students on the latest round of local and state measurements. It was no surprise to learn that the scores reflected a very favorable mastery of the fundamentals of reading and computing. Particularly significant were the conclusions rendered through the writing sample. Here the children scored well above the norm relating to us that the staff's commitment to process as well as product is proving the most fruitful. Another strategy being used to enhance student outcomes is the cross disciplinary approach where student learning is not reduced to compartments and grade levels, but rather, unified with one subject reinforcing the next. Productions, dinners, parent/teacher/student get-togethers and field trips are visible manifestations of the concept. Multi-age groupings, cross-level placements and intra-grade selections for projects are further examples.

This collaborative pursuit extends well into the area of special assistance programs with frequent contact among the staff relative to the youngsters' learning objectives. Returning to the school after some absence was the service of a Chapter 1 Tutor for reading. According to Federal guidelines and need, we were assigned three hours of assistance each week. The appropriation of more instructional assistance for several children necessitated the acquisition of a resource tutor and a change in the percentage of time spent in the school by the Learning Disabilities teacher. After contracting speech services through outside providers, we have restored the ownership to the local level by employing a therapist who extends her expertise beyond the mandated programs. Rounding off these unique opportunities for your children is the professional who assists with correcting disorders interfering with motor tasks. The coordination and responsibility for pulling these programs together rests with the Unit's Pupil Service Director, Francine Fullam.

Working toward a process oriented school would be a monumental task but when you are provided with a cast of colleagues who know their jobs and are committed, then the concept is very attainable.

Since our last report to you in 1986, the composition of the

school has changed in several ways. In June, it seems as if we promoted the last of the small classes. For with the Kindergarten registration in May and new enrollers throughout the grades, the population continues in an upward surge. As a result, the children have been regrouped in the familiar double grade combinations with the exception of the Kindergarten. Jeanne Haskins and Eenie Black became part of the school team when Barbara McDonald and Jean Bowser proffered their resignations. We wish to express our appreciation to the latter for their years of contributions to the community's young. Another new face to the children is Mr. David Salley, their music instructor.

During the year there were many opportunities for supplemental student experiences. Speakers shared their specialties such as animal adaptation, tree farming, and lobstering. A boat trip in June to the Isles of Shoals, along with a picnic lunch at Rye State Park, proved quite educational and recreational. Some joint exercises with parents like a back-to-school reading night, an airplane construction and flying contest, and a Saturday night trip to the West Hill Observatory in Eliot helped to keep the cooperative focus of education before us all.

Working together, the Newington and the New Castle children participated in a joint holiday concert at the new Town Hall. Another example of networking was the feast shared with our community helpers at Thanksgiving.

Using the community's physical resources has become a common practice among the various agencies. The School Administrative Unit used the new auditorium and school for an alcohol and substance abuse program. Recreation schedules the gymnasium for their summer and basketball programs. Local industries and businesses rent the school facility for their activities.

The physical plant had some renovations done to it this past year. Due to water damage from a ruptured pipe, the new addition received a new face lift with the replacement of its rugs and tile. Blinds were also installed to reduce the amount of solar heat during the inappropriate times. In an effort to control heat loss, zone valves and thermostats were placed in dead or unoccupied spaces within the buildings. Water and age was again the culprit in the reconstruction of the exterior entry way. A planned project was the supplanting of the steel septic tank with the contemporary concrete design. As often stated, we are pleased with the overall condition of the facility and are constantly working to keep it in top shape.

As I bring this report to a close, I encourage you to offer your assistance to the future of Newington by investing a little time with its children through the school volunteer program. Many have already done so. Just give us a call or stop by.

REPORT OF CERTIFIED PUBLIC ACCOUNTANTS

Members of the School Board
Newington School District

We have examined the combined financial statements, as listed in the Table of Contents, of the Newington School District as of and for the year ended June 30, 1986. Our examination was made in accordance with generally accepted auditing standards and the additional standards and requirements for financial and compliance audits as set forth in **Standards for Audit of Governmental Organizations, Programs, Activities and Functions**, 1981 Revision, promulgated by the U.S. Controller General and accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances, except as stated in the following paragraphs.

The school district has not maintained proper records of its General Fixed Assets. Therefore, these combined financial statements of the Newington School District does not include the financial statements of the General Fixed Asset Account Group. This is a departure from generally accepted accounting principles.

In addition, the terms of the audit engagement do not call for an examination of any Student Fund Accounts maintained by either the School District or the students themselves, therefore the financial statements for the Newington School District do not include the Student Fund Accounts.

In our opinion, except for the omission of the financial statements described in the above two preceding paragraphs result in an incomplete presentation, and except for the change, with which we concur of adding the School District's sick pay to the General Long-Term Debt account group, the combined financial statements referred to above present fairly the financial position of the Newington School District as of June 30, 1986, and the results of its operations in conformity with generally accepted accounting principles, which have been applied on a basis consistent with that of the preceding year.

members of the community with the school. Far-reaching benefits can be derived for the town, school, and children from resources in our midst. The Board intends to pursue the growth and development of this program.

In an effort to cope with the growing problem of drug and alcohol abuse, SAU 50 became involved in The Adelphi Program. I refer you to the Superintendent's Report for an explanation of this. In light of the program's past successes, the Board has high hopes for its benefits to our school.

The Cooperative School District study (Planning) Committee was voted and approved at last year's School District Meeting. Its purpose is to conduct a feasibility study of a cooperative school district comprising the towns of Newington, Greenland, New Castle, Rye and Stratham. Tackling this monumental task has meant meeting, on what has become a weekly basis, throughout the year. Each town was to contribute "three qualified voters, at least one of whom shall be a member of the School Board." Newington's representatives are Barbara Hill, Fred Smith, and Claire Dill. The study committee will have a report for the town upon the resolution of a few remaining issues.

In regard to the school budget, there have been two basic changes made. There seems to be at least two schools of thought regarding budgeting. One employs "Murphy's Law" and bases its figures accordingly, returning all unused monies to the town at year's end. The second is to budget for exactly what the anticipated needs are and hope that no unforeseen "disasters" (additional special education expenses, an influx of Junior and Senior High tuition students, a major maintenance problem, etc.) strike. This second form of budgeting, when presented to the budget committee and town, is prefaced with the warning that should the unexpected happen, the Board will return to the town for additional funds. Over the last two years, the Board has opted to defy "Murphy" and follow the second course of action.

The Board voted in November to present the budget in the form of two warrant articles. The first article will contain the cost increases reflected in a negotiated contract settlement. The second article contains the operating costs and the salaries (with step increases where applicable) and cost items covered by the existing contract.

The School Board is charged with the responsibility of maintaining the highest quality education possible for the town's children. In so doing, the Board must balance the needs and concerns of the school with those of the community. We have and shall remain accessible and responsive to all concerned.

Paula Akerley, Chairman

REPORT OF THE SCHOOL BOARD

Last March, the Board experienced a loss when Edna Mosher, for personal reasons, found it necessary to resign her position. Wendy Sweeney was appointed to fill that vacancy and is a fine asset.

In the past, School Board meetings have been held on the first Tuesday of each month at 3:15 p.m. The time of the meetings was changed this past year to 7:00 p.m., thus enabling citizens, who work during the day, to attend.

The Board established a maintenance schedule two years ago and 1986 saw several items completed. To avoid repetition, I refer to the Principal's Report for an accounting of some of the repairs. In addition, a new stove was purchased for the lunch program. For energy conservation purposes, the Board made an initial inquiry into redesigning the large windows along the driveway side of the building. We were presented with a cost-prohibitive response and have therefore tabled that project for future study. A possible large expense looming in our future is the replacement of the fuel tank. The state has come up with certain mandates which may eventually make this an expensive reality.

The Board has been diligently reviewing and updating its Policy Manual. Staff qualifications and job descriptions have also been under the process of review.

A four-week Critical Skills Institute, held this past summer in Rye, received the Board's full support and approval. This course, open to students in grades 6 through 12, stressed independent problem solving skills. Registration was on a volunteer basis and Newington had one student enrolled. It is hoped that this program will grow to become an integral part of curriculums throughout the entire SAU.

As mentioned in last year's report, achievement testing in grades 4, 8, and 10 was mandated on a state-wide basis. Newington fourth graders ranked second in the state for overall test scores. We applaud the efforts of the teachers and students and the support that Newington has always shown for the school.

Chapter 1 was re-introduced to the Newington School. This is a state-supported program designed to give additional help in reading and math to those students who qualify. Also, our special education teacher, whom we share with Greenland, increased her time spent in Newington from 20% to 25%. An occupational therapist and speech therapist are also being utilized. Those students in need of extra help are very fortunate to live in Newington.

A Volunteer Program, under the direction of Wendy Sweeney, is in its beginning stages. This program is designed to involve
